FOBRO hoeing machine

The reliable ACCORD/RAU tool frame concept (newly with 8 mm material thickness) has been retained. This double-sided frame holds attachment parts, such as support wheels, steering and tripod, at the top. The hoeing parallelograms are screwed onto the bottom of the frame, and can thus be freely adjusted to any potential row spacing. The radically improved parallelogram (tool frame) is designed specifically for the needs of special crops: LONG-LASTING, COMPACT, ROBUST, VERSATILE, AND COST-EFFECTIVE.

Very compact design with a large passage; here with three duckfoot shares.

FÜR SPEZIALKULTUREN, BIOANBAU UND REDUZIERTE HERBIZIDEINSATZ IM FUTTER- UND ACKERBAU.

DANK HOHER QUALITÄT KOSTEN GÜNSTIG IM EINSATZ. ALTERNATIVE STRATEGIEN GEGEN HERBIZIDRESISTENZEN.

Very compact design with a large passage; here with three duckfoot shares.

The robust parallelogram made of "DOMEX" steel sheet allows countless combinations.

The precise height control through a large walk-wheel (260x60mm) can be easily adjusted without tools via a lever with a perforated rail.

IT IS POSSIBLE TO HOE WITHIN THE PLANT ROW!

Tested and proven thousands of times over in:

Tree nurseries, roses, lavender, aromatic and medicinal herbs, avenue, forest and fruit trees, bushes, shrubs, seedlings, rootstock nurseries, vegetable crops, viticulture

Single row with spring-loaded tool support for mounting over the plant row

The rear mount with hand steering allows precise control

The finger hoe can be installed in all standard hoeing machines

In combination with the Kress telescopic hoe, the entire area can be processed

The small version of finger hoe allows processing of row spacing starting from 25 cm

Weiche, große Fingerhacke in Rosen

Technical specifications

Subject to technical modifications and product improvements

Time of application	approx. 10 days after planting
Passage	50-80 cm (higher if desired)
Mounting	Front, rear, and mid-mount Horse carriage
Working speed	4-15 km/h
Row spacing	small: from 25 cm large: from 40 cm maxi: from 90 cm
